I'll handle adding them, and let you know. Please have her send me her revised resume. I've got a couple ideas cooking and would like to keep her in mind as they develop —

Fri, Dec 1, 8:46 AM

for our call today think whether (i) you want to mention how yall plan to address the timing of exec order (ii) there are other current sensitive topics you would like to share on call w officers even if not council; and (iii) you want to discuss pipeline as one such issue. Pipeline is getting bad press but it seems like a no brainer to bz community. I am talking w vanessa in a few minutes about her role. Happy to talk w you before 245 if helpful.

(I) Let's include some time on the Exec Order. (II) I think we should discuss GenX/Chemours as one such issue, possibly Amazon/Toyota as well; on (III) I'll call you on ACP. Perhaps around midday?
